

# Mammoth Lakes Library Textile Art Show

By, The Calico Quilters

*Great for Christmas Gifts*

We are a small group of quilters from the Calico Quilters Guild of Bishop that love to explore beyond the traditional quilting methods by experimenting with new techniques and materials to create works of art. These quilts are often created using our own hand dyed, printed and painted fabrics. Beads, embroidery, and found objects might be added into a piece as well as machine quilting using a variety of decorative threads.

We are inspired by our surroundings and personal experiences and want to reflect these in our works, be it a beautiful landscape, an interpretation from a cherished memory or an experiment with color, form and texture, we hope that others will view them and take something away for themselves.

*Exhibit running through January 31st*

*30% of the sales goes to the Friends of the Library*
