

# MAMMOTH LAKES LIBRARY IS HOSTING A FILM CLUB WITH MEGAN PIERCE!

Call for Middle School, High School, and College students interested in creative areas such as: writing, photography, music, acting, hair and makeup, fashion and wardrobe.

T H E R E I S  
M O R E T O  
F I L M T H A N  
Y O U T H I N K

Students will learn terminology, how to operate a camera, use basic editing software, improvise and build basic equipment and props, as well as the creative aspects of filmmaking (camera angles, types of shots, lighting, screenwriting, stop-motion animation, setting up locations and sets, etc.)

- 🎬 Love fashion? Costume design may be for you!
- 🎬 Enjoy writing? Write a script!
- 🎬 Into technology? Let's explore CGI or editing!
- 🎬 Make-up or hair your thing? That's part of film too!
- 🎬 Maybe you like visual art mediums? Painting, drawing or sculpting...story boarding, set design or special effects may be what you want to explore!

The club will be about collaboration between students to explore film interest, share creative ideas and produce short films.

The club will explore movies and film, provide opportunities to learn from film and those who have experiences working in the industry and provide opportunities to practice your creative side in a way you may not have thought of previously.

Film Club will meet Mondays and Fridays 3:30-5:30 in the Makerspace beginning June 25<sup>th</sup>!
